

The image shows a web browser window with the address bar set to `localhost:3000`. The page title is "Sign in to Search DDBJ Private". The main heading on the page is "SEARCH DDBJ PRIVATE DATA". Below this is a "Sign in to your account" form with fields for "Username or email" (containing `newuser@server.com`) and "Password" (masked with dots). A blue "Sign In" button is at the bottom of the form. To the right of the form, a text annotation "Automatically redirects to keycloak authentication" has an arrow pointing to the right side of the browser window. Below the login form, a smaller browser window titled "React App" is shown, displaying a search interface. It has a search bar with the text "BS12345" and a "Search" button. Below the search bar is a table with the following data:

Email	BioSample	BioProject	DRR
newuser@server.com	BS12345	BP12345	DRR12345

Arrows from the text at the bottom point to the "Sign In" button and the search results table.

After authentication users can search BioSample ID, only their corresponding data will be retrieved.
